The Economist Group

#### **OVERVIEW**

This is the only course of its kind on international corporate treasury and will serve as your comprehensive guide to the essential elements of cash management.

Over three days our expert tutors will use a mix of teaching methods including lectures, real life case studies and group exercises to provide you with practical skills and knowledge that can immediately be applied upon your return to the office. This course is also the ideal precursor for our intermediate level programmes.

It has been specifically designed for finance and treasury professionals who are either new to international corporate treasury or need to refresh or expand their knowledge to gain a practical understanding of all the technology, terminology and procedures. It is also relevant for banks, consultants and system suppliers who need to better understand the needs of their corporate clients.

**TUTOR** 

Adrian Rodgers, Senior EuroFinance Tutor & Director, ARC Solutions, UK

After qualifying as a Chartered Accountant, Adrian spent a number of years with IBM, in a variety of treasury and sales roles. Adrian was also part of

the implementation team which created IBM International Financial Services, the European centralised treasury operation based in Dublin. Adrian then joined the newly created cash management consultancy team of Chase Manhattan Bank, with a brief to help create cash management solutions which matched the needs of customers' underlying businesses and technology infrastructures. As a Director at PricewaterhouseCoopers, he specialised in managing change in the finance function, including re-engineering of corporate treasury. His current company is an independent consultancy providing advisory, design and implementation services to corporates and banks, on a variety of change-related issues within the finance function. Services include strategy development, process design, bank and vendor selection and project management. Clients include major corporations with a strong international focus.
