Training

International Treasury & Cash Management

• INTERMEDIATE COURSE

The essential elements of international
treasury management

Tutor

*Adrian Rodgers, Senior EuroFinance Tutor
& Director, ARC Solutions, UK*

The Economist Group

OVERVIEW

This course is designed to provide finance professionals with up-to-the-minute knowledge of the essential elements of corporate cash and treasury management, including: the role of the corporate treasurer and the structure of treasury; cash and liquidity management; interest rate and foreign exchange management.

You will gain a complete insight into the new and existing challenges facing the industry and develop practical skills and knowledge that can be immediately applied upon your return to the office.

LEARNING OBJECTIVES

By the end of the course, you will be able to:

- Place Treasury and cash operations in the context of your business and its challenges
- Understand the issues surrounding cash management in an international context
- Identify the differing capabilities of potential banking partners and how to manage both the selection and ongoing bank review processes
- Have insight into the techniques used by multi-national corporations to manage their cash across a range of currencies
- Have a comprehensive view into the technologies available to you to manage your cash position
- Review your risk profile in the light of the most common exposure to cybercrime

THE TUTOR

Adrian Rodgers
*Senior EuroFinance Tutor
& Director, ARC Solutions*

After qualifying as a Chartered Accountant, Adrian spent a number of years with IBM, in a variety of treasury and sales roles. Adrian was also part of the implementation team which created IBM International Financial Services, the European centralised treasury operation based in Dublin. Adrian then joined the newly created cash management consultancy team of Chase Manhattan Bank, with a brief to help create cash management solutions which matched the needs of customers' underlying businesses and technology infrastructures. As a Director at PricewaterhouseCoopers, he specialised in managing change in the finance function, including re-engineering of corporate treasury. His current company is an independent consultancy providing advisory, design and implementation services to corporates and banks, on a variety of change-related issues within the finance function. Services include strategy development, process design, bank and vendor selection and project management. Clients include major corporations with a strong international focus.

WHY TRAIN WITH EUROFINANCE?

Real world treasury training

Leave with skills and techniques that you can immediately apply when you get back to the office.

Unrivalled knowledge of current best practice

We talk to treasurers on a daily basis and know what matters most to the profession.

Expert tutors

We have secured the services of the leading tutors in the profession with both banking knowledge and corporate expertise to give you the best all-round training available.

Truly global

We run treasury events all around the world and attract a very international audience.

Practical teaching method

Our courses aren't just theory, we use real-life case studies and group exercises to illustrate each learning point.

We are the treasury specialists

EuroFinance has been working exclusively with the treasury and cash management profession for over 20 years.
